

Morgan Stanley

## Risk Management Co-Op Internship

### Placement and Duration

The Off-Cycle Internship is an opportunity to experience the culture and atmosphere in the Firm Risk Management Division by taking on some of the responsibilities and functions of a Full-time Analyst for a short period. The internship typically lasts six to twelve months, but can vary in length depending on business needs and candidate availability.

The cornerstone of Morgan Stanley's risk management philosophy is the execution of risk-adjusted returns through prudent risk-taking that protects Morgan Stanley's capital base, liquidity and franchise.

### Training Program

You will receive on-the-job training and benefit from working alongside experienced professionals on a variety of projects.

### Responsibilities

Work closely with the Risk team to help to:

finalise departmental presentations to senior management by proof reading and formatting

compile some risk data into spreadsheets

maintain data spreadsheets

input data into systems and tools

ensure completeness and accuracy of data in the tools and systems by performing reconciliations with the source

---
