

Who are we looking for

People who are **problem solvers**...

We look for people who approach problems differently; with a mindset that anything is possible and have the intellectual abilities to find solutions where others cannot

...want to make an **impact**...

We look for people who dare to speak up and have the motivation to drive change; we always want to do better

...have **entrepreneurial drive**...

We look for people with an entrepreneurial drive, proactive approach and positive attitude

...and have **leadership abilities**

We seek people who work efficiently in any team setting and have the potential to become a future leader; leading by example is how we operate at Triton
